IF YOU'LL JUST  
STATE YOUR BUSINESS  
AND GO AWAY QUIETLY,  
NOBODY'LL GET HURT!

### The Road Not Taken

Two roads diverged in a yellow wood,  
 And sorry I could not travel both.  
 And be one traveler, long I stood  
 And looked down one as far as I could  
 To where it bent in the undergrowth;

Maiken Kunces. One who has dedicated 19 years of her life to the improvement of the minds and the talents of our students here at Middleborough High. One who with total devotion always went that extra mile. Always willing; always able. A truly great lady.

It is with deep appreciation that the 1991 *Timaron* is dedicated to Mrs. Kunces. May the years ahead bring much challenge and fulfillment.

As the Class of '91, you must understand that for some (your grandparents, your parents, selected members of the teaching staff and your superintendent of schools), 1991 was a far off mark in time during our youth. For those of us who entered high school over forty years ago, as the graduating Class of 1955, 1991 was a year beyond our comprehension. A year with very little significance to reality. However, time goes on and here we are, looking to June and the graduation of the Class of '91.

From the date of your graduation, you too will look to the future as being off in the distance. Few of you, if any, will give much thought to events forty years from now. Just as those graduates of 1955 gave little concern to life in their vintage years. It is, after all, human nature to be more concerned about the immediate and assume the future is beyond our control. As a result of such thinking, many of those past graduates (of thirty-six years ago) harbor serious regrets over the passage of time. Hopefully, members of the Class of '91 will not experience the same disappointment in year 2027.

To insure against such an eventuality, let me offer several suggestions: 1) Make the best of every opportunity; 2) Reach out for those endeavors in life which will bring fulfillment; 3) Think and plan your life sacrificing if necessary immediate gratification for long term goals; and finally, 4) Use all your talents and skills to their fullest extent. If you follow this advice and commit all your energies to these four principles, there will be little to regret as time passes. You will know, regardless of the circumstance, that you gave your best!

With this statement, I wish to express my best wishes to the Class of 1991. As you enter society, know that your teachers, your parents and your superintendent of schools are here to continue to offer our support and encouragement.

Yours truly,

Michael S. Ippolito, Ed.D.  
Superintendent of Schools

Mr. Harvey Brooks  
Vice-Principal

#### YEARBOOK MESSAGE TO SENIORS:

Your class, the Class of 1991, has certainly left its mark on M.H.S. Many of us of the staff have felt that your class possessed "something special" from the first few weeks of your freshman year.

We, the faculty, staff, and administration of Middleborough High School, have certainly enjoyed having you as part of our student body. What you have accomplished both individually and collectively will long be remembered.

We wish you the very best in whatever career you choose to pursue in the future and know that each of you will be a credit to your family and our school.

Good Luck!! You have been a great class!

Sincerely,

William S. Wassel

HOMETOWN  
ATMOSPHERE AND  
OPPORTUNITY

Love I get so lost; sometimes days pass and emptiness fills my heart. When I want to run away I drive off in my car, but whichever way I turn I come back to the place you are. All my instincts, they return, and the grand facade, so soon will burn without a noise; without my pride I reach out from the inside.

In your eyes the light, the heat; in your eyes I am complete; in your eyes I see the doorway to a thousand churches; in your eyes I see the light and the heat; in your eyes, oh, I want to be that complete; I want to touch the light, the heat I see in your eyes.

Love, I don't like to see so much pain, so much wasted, and this moment keeps slipping away. I'm so tired of working so hard for our survival; I look to the time with you to keep me awake and alive, and all my instincts, they return, and the grand facade so soon will burn without a noise, without my pride, I reach out from the inside.

In your eyes the light, the heat; in your eyes I am complete; in your eyes I see the doorway to a thousand churches; in your eyes the resolution of all the fruitless searches; in your eyes I see the light and the heat; in your eyes, oh, I want to be that complete. I want to touch the light in your eyes, in your eyes, in your eyes . . .
